And What Have You

By BOB CRAIG

The annual banquet of the Hamlin Board of Community Development will be held this Friday evening and I hope that you will make an extra effort to attend. It is important that the people elected to represent you on the board know that you support them in their efforts to make Hamlin a better place in which to live.

Just by attending a banquet you might feel that you are not contributing very much to insure the future growth of Hamlin but you may be surprised. If for no other reason you should attend to show your support for the few who devote their time and efforts on your behalf as directors and officers. And at the same time you might get inspired to do something for your community that you would not have done otherwise.

So please make an effort to be there Friday evening—it's important to both you and your community.

One of the major problems facing this session of the Texas Legislature is the one of redistricting. Every 10 years, following the census, the state legislature must realign the congressional, state senatorial and state representative districts.

This is always a task that is dreaded. And the court's one man-one vote rule has not done anything to help the situation.

This matter of redistricting is even more of an issue and a problem for West Texas because of declining population.

There will be a hearing in Abilene Friday by the sub-committee of the House Committee on Congressional and Legislative Redistricting to take testimony considering the wishes of the people of West Texas.

This past week the Abilene Chamber of Commerce came out with a plan for the redistricting of both the Legislative and Congressional districts that meets the court requirements as to variations in population and seems to take care of our area of the state pretty well.

The plan calls for adding 12 counties to the 17th Congressional district served by Omar Burleson. This is necessary to come up with the required number of people. The new 43-county district would include 465,791 people which is close enough to the magic number of 465,534 and does not take in any large urban population area which is important to this area. The problems of West Texas just do not mix well with the problems of Fort Worth or Austin.

Their plan for the Legislative districts calls for our current district, being served by Grant Jones and Frank Calhoun, to be expanded from just Jones and Taylor counties to also include Fisher, Nolan, Shackelford and Callahan Counties. This would seem to be an advantage to us in Jones County as it would make this district a little more rural.

I am sure that this plan submitted by the Abilene CofC will run into some problems somewhere in the state but as far as we can tell it would serve our area very well.

If someone in Hamlin feels that this is not the best plan for this area then someone needs to come up with a better one and be at the Abilene meeting. By the same token it would be well if this area was represented in Abilene in support of the Abilene CofC plan if this one serves our best interests.

Probation Officer Handles 126 Cases In Jones County

Of the 586 cases handled in 1970 by William S. McCay, adult probation officer for Taylor, Jones and Callahan Counties, 126 were in Jones County.

During the year, 29 Jones County probationers' terms expired, eight were revoked and three were dismissed, one from 104th District Court in Jones County and two from the County Court.

There are 29 active probationers from this county charged on felonies in 104th District Court and 97 misdemeanors in County Court.

Of 326 probationers on misdemeanor charges, 291 were charged on driving while intoxicated. Check swindling ranked second with 10 cases on the adult probationer's list.

There were six probationers for aggravated assault, four theft, three possession of dangerous drugs, three sale of alcohol in dry areas, two carrying a prohibited weapon and two child desertions.

Burglary headed the list

for probationers in felony cases, with 64 in the three county, two district court area. Theft ranked second with 49, DWI second offense ranked third with 31 and possession of marijuana fourth with 29.

There were 289 probationers on felony charges and 326 in misdemeanor charges, for a total of active probationers of 615.

McCay's report included a breakdown of the ages of probationers under supervision. Of the 615, 202 are between 21 and 30; 194 are between 31 and 50; and 141 are between 51 and 60.

There are only 17 active probationers over 61 years of age. There are 61 on the list between 51 and 60.

Of the 615, 558 are male and 57 female.

Visitors in the home of Mr. and Mrs. Lynn Flowers last Sunday were Floyd and Clifton Davis of Abilene.

For those who asked for further clarification on the statement last week that since the Old Glory School District is free of bonded indebtedness it would mean a reduction in the tax rate from \$1.67 to \$1.50 and this COULD mean \$7,000 less taxes next year. This does not constitute a statement in regard to taxes required for operation or tax valuation. It is, however, a matter of record that taxes collected for payment of bonded indebtedness by the district this year were approximately \$7,000 and the average yearly collection for the past ten years has been somewhat higher than that. Therefore regardless of costs, the 1956 Old Glory Rural High School District Building Bonds have been paid in full and no more taxes will be required for this purpose.

Neinda Philosopher Says the Government Needs A Better System for Announcing Alerts

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One discusses the false national emergency alert this week, we think.

Dear editor:

I wasn't listening to the radio at the time so wasn't aware of the "national emergency alert" that went out over the country when somebody fed the wrong tape into the networks, but according to the newspaper account I read a lot of people got pretty excited and more would have

if more radio stations had believed what they were being inaccurately told.

I'm afraid the government's going to have to get a different system, because like it is nobody believes much of anything anybody says anymore.

It seems to be a national trend. No matter what a law says, practically any politician in violation of one can explain how he didn't violate it, taking so long to do it by the time he's through you've forgotten what the question was.

This seems to work for poli-

Letters to Editor

Writer Backs Police Department

Editor Hamlin Herald

I would like to take this opportunity to express my appreciation to the Hamlin Police Chief, and the patrolmen under him, for the excellent way they have tried to enforce the laws in our community.

In a time such as this, when violence and the breaking of the law is on the rise, we have a handful of dedicated people who are trying at all times to protect us, our property, and make the streets safe for our children. While we are enjoying the comfort of our homes and TV, these people are on duty watching over our community, while their family sits at home alone.

To these dedicated men, I take my hat off.

If our Police Department is being hindered in carrying out their duties and enforcing the laws of the State of Texas, I say our citizens, Mayor, and City Council, should get behind our Department and give it our full support.

I believe surely there is some mixup or misunderstanding, as our Mayor and City Council, are elected by the people of Hamlin, to serve as our governing body, and be our spokesmen in matters concerning our community. I can't believe these people in whom we have placed so much trust and confidence, would let personal feeling sway their decision to interfere or to restrain the enforcement of our laws or protection of our lives and property.

Our Police Department personnel have made excellent examples of themselves as people of high moral. They belong to our local churches, are active in our local Boy Scout program, and have worked with our public school system in trying to show the hazards of various kinds of narcotics, besides building up the Hamlin Civil Defense program that we have for the first time in the history of Hamlin. Our local Department has solved more burglaries, and kept the violence to a minimum, and kept our streets safer from drunken drivers, more efficiently than anytime in the past.

How do these dedicated people have time to do all

of this and still have a home life for themselves, especially on the meager salary we pay them?

Let's show our appreciation for the Police Department we have and offer our support to them.

News deadline is noon Tuesday.

ticians, and what I object to is that it won't work in other areas.

For example, if my bankers says "Your note was overdue last Tuesday," I'd like to be able to say, "Now look, it was a year ago I promised to pay that note by last Tuesday and I'm a man of my word, the record shows that, but the world doesn't stand still. What's true today is not necessarily true tomorrow. Life is vast and complex. I made that promise in the light of what was happening twelve months ago, and in that time as we all know the Indo-China situation has changed, we've had an earthquake in California, the cost of living has gone up, man has walked once more upon the moon, the world's biggest railroad and Rolls-Royce both have gone broke and the airlines are losing money, not to mention the pollution problem, and while it's technically true that note was overdue last Tuesday, you've got to remember for the 12 months prior to that it was under-due. You've got to look at this from the over-all viewpoint. On balance, the note was under-due 12 months and is now overdue by only six days. That's not such a bad record, is it?"

You try this, and judging by what the banker will say, you'll figure somebody has fed the wrong tape into him. Yours faithfully,
J. A.

Judging Team Places At Odessa

The Hamlin FFA Chapter's livestock judging team traveled to Odessa last Saturday to participate in the Odessa Invitational Livestock Judging Contest. The team placed third in beef cattle judging and fourth overall.

Steve Teichelman tied for second high individual in beef judging. Other team members were Rodney Rackley, Carlos Gonzalez and Kenneth Payne. Johnny Howard and Rickey Gruben judged as alternates.

They were accompanied by Milburn Wink.

PREPARATION

Thousands of Christians throughout this great nation spend hours of serious study, searching the scriptures and commentaries written by scholars who have dedicated their lives to the task of seeking out the full meaning of God's Word.

These willing workers, teaching from the Bible feel that their work is vital to the fulfilment of your spiritual life.

Won't you accept the invitation to attend church as offered by the sponsors of this space, and receive the benefits offered by these willing teachers.

EVERYONE IN THE CHURCH

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

HOW FAST IS TOO FAST?

Clark
BRADLEY

It depends on several conditions . . . and your safety hinges on your recognition of these conditions.

Your car may be capable of making 110 miles per hour, but 50 miles an hour around some curves can cause your car to skid into a costly traffic crash.

30 miles an hour on rain-slick city streets can be an open invitation to disaster. 70 miles an hour on rain-slick superhighways can also be deadly.

Posted speed limits are maximum limits to be approached only under ideal traffic, weather and road conditions. Because you see a 70 mile-an-hour speed limit sign, it does not mean that you can travel

that speed—under all circumstances—in safety. You may find a 25 mile-an-hour speed limit in some school zones, but if children are walking along the street or playing nearby, then 25 miles an hour under those conditions is obviously too fast.

It takes a great deal of mature judgement to know how fast to safely negotiate all traffic, weather and road conditions. Many Texans have this judgement, but unfortunately some do not. How about you?

For information on traffic safety, contact the Governor's Traffic Safety Office, the Department of Public Safety, or Texas Safety Association, Austin.

Capital NEWS

AUSTIN — Legislators moved toward their first major tax showdown this week. House Revenue and Tax Committee was due to bring out its version of a revenue-sharing measure to balance a record budget.

Heart of the measure is a raise in the sales tax rate from 3.25 per cent to four per cent (good for \$300 million in additional biennial revenue) and an increase in motor vehicle sales tax from three to four per cent (for another \$70 million).

Proposal to be advanced to the House floor for debate reportedly will include:

An increase of 50 cents (to \$3.75) per \$1,000 in the corporation franchise tax rate, \$26 million.

Extension of the sales tax to repairs, laundry, dry cleaning, haircuts and beauty shop services, \$100 million.

Sales tax on amusements, including professional sports and tourists attractions, \$35 million.

An increase in hotel room tax from three to four per cent, \$4 million.

Sales tax on telephone and telegraph bills, \$40 million.

House already has passed a bill to raise out-of-state students' tuition at state-supported colleges and universities from \$200 to \$700 a semester and a \$185 million bond bill to finance new college building. Neither measure has moved beyond subcommittee in the Senate.

Speaker Gus Mutscher has indicated he will allow representatives a full run with amendments to the tax bill on the House floor.

Revenue and Tax Committee Chairman Rep. Ben Atwell of Dallas said lawmakers have the choice of wringing major new revenue out of tried sales taxes or looking to a combination corporate-personal income tax.

AG OPINIONS — A voter registration certificate should not be issued to one convicted of a felony and placed on probation until the court sets aside the complaint or indictment as specified in the election code, Atty. Gen. Crawford has held.

In other recent opinions, Martin concluded that:

A justice of the peace is not entitled to any fee for conducting administrative hearings on the revocation or suspension of driver's licenses.

Jury panels selected by jury commissioners appointed by a county judge who has an interest in a pending case in county court are not void ad the jurors are not disqualified to serve on county court juries.

COURTS SPEAK — U. S. Supreme Court reinstated the Texas obscenity law in a Dallas case involving prosecution of an underground newspaper.

State Supreme Court granted a new hearing for a Cameron County man who blamed his insurance company for negligence in defending him in a 1968 suit arising from a traffic accident and in rejecting reasonable settlement offers.

Electric Water Heaters

Electric water heaters have remarkable advantages. They have no open flame . . . hence no smoke, no soot, no dirt. Because they are flameless, electric water heaters do not require venting, so they can be placed anywhere in the house, in a closet, pantry, or, with some models, under the counter. Modern electric water heaters offer high recovery plus abundant hot water for every need.

Best of all, with low-cost power furnished by the electric cooperative your electric water heater is economical to operate. So do your bit for the ecology economically. Heat your water the modern way with flameless electricity.

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

The annual banquet of the Hamlin Board of Community Development will be held this Friday evening and I hope that you will make an extra effort to attend. It is important that the people elected to represent you on the board know that you support them in their efforts to make Hamlin a better place in which to live.

Just by attending a banquet you might feel that you are not contributing very much to insure the future growth of Hamlin but you may be surprised. If for no other reason you should attend to show your support for the few who devote their time and efforts on your behalf as directors and officers. And at the same time you might get inspired to do something for your community that you would not have done otherwise.

So please make an effort to be there Friday evening—it's important to both you and your community.

One of the major problems facing this session of the Texas Legislature is the one of redistricting. Every 10 years, following the census, the state legislature must realign the congressional, state senatorial and state representative districts.

This is always a task that is dreaded. And the court's one man-one vote rule has not done anything to help the situation.

This matter of redistricting is even more of an issue and a problem for West Texas because of declining population.

There will be a hearing in Abilene Friday by the sub-committee of the House Committee on Congressional and Legislative Redistricting to take testimony considering the wishes of the people of West Texas.

This past week the Abilene Chamber of Commerce came out with a plan for the redistricting of both the Legislative and Congressional districts that meets the court requirements as to variations in population and seems to take care of our area of the state pretty well.

The plan calls for adding 12 counties to the 17th Congressional district served by Omar Burleson. This is necessary to come up with the required number of people. The new 43-county district would include 465,791 people which is close enough to the magic number of 465,534 and does not take in any large urban population area which is important to this area. The problems of West Texas just do not mix well with the problems of Fort Worth or Austin.

Their plan for the Legislative districts calls for our current district, being served by Grant Jones and Frank Calhoun, to be expanded from just Jones and Taylor counties to also include Fisher, Nolan, Shackelford and Callahan Counties. This would seem to be an advantage to us in Jones County as it would make this district a little more rural.

I am sure that this plan submitted by the Abilene CoC will run into some problems somewhere in the state but as far as we can tell it would serve our area very well.

If someone in Hamlin feels that this is not the best plan for this area then someone needs to come up with a better one and be at the Abilene meeting. By the same token it would be well if this area was represented in Abilene in support of the Abilene CoC plan if this one serves our best interests.

PREPARING DECORATIONS — Members of the Hamlin Garden Club preparing decorations for the annual Board of Community Development Banquet are, from left, Mrs. John Ed Day, Mrs. Joe League, Miss Lennie Greenway, Mrs. B. B. Colwell, Mrs. Joe Hudspeth, club president, and Mrs. R. D. Moore. The banquet will be held Friday at 7:30 p. m. in the high school cafeteria.

Probation Officer Handles 126 Cases In Jones County

Of the 586 cases handled in 1970 by William S. McCay, adult probation officer for Taylor, Jones and Callahan Counties, 126 were in Jones County.

During the year, 29 Jones County probationers' terms expired, eight were revoked and three were dismissed, one from 104th District Court in Jones County and two from the County Court.

There are 29 active probationers from this county charged on felonies in 104th District Court and 97 misdemeanors in County Court.

Of 326 probationers on misdemeanor charges, 291 were charged of driving while intoxicated. Check swindling ranked second with 10 cases on the adult probationer's list.

There were six probationers for aggravated assault, four theft, three possession of dangerous drugs, three sale of alcohol in dry areas, two carrying a prohibited weapon and two child desertions.

Burglary headed the list

for probationers in felony cases, with 64 in the three county, two district court area. Theft ranked second with 49, DWI second offense ranked third with 31 and possession of marijuana fourth with 29.

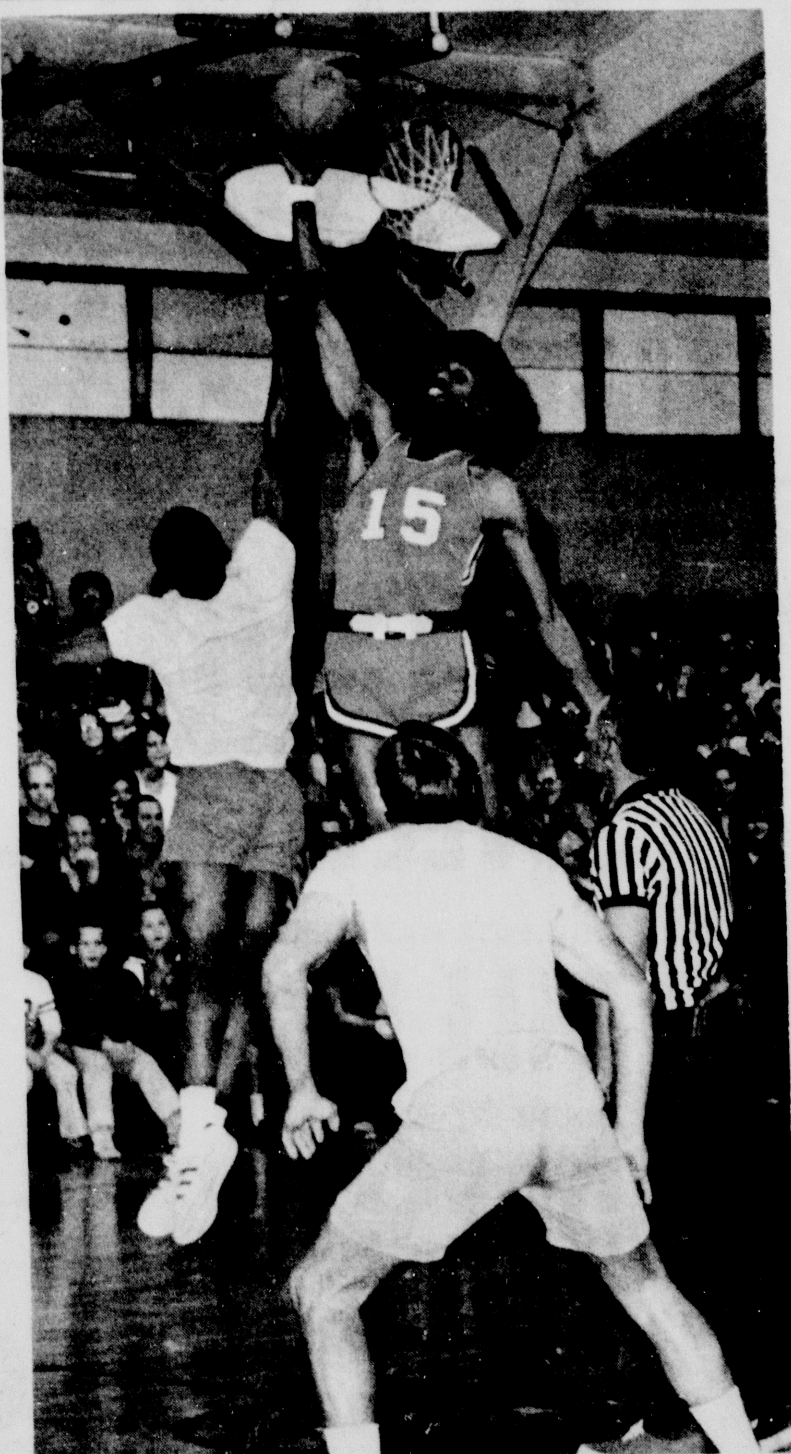

There were 289 probationers on felony charges and 326 in misdemeanor charges, for a total of active probationers of 615.

McCay's report included a breakdown of the ages of probationers under supervision. Of the 615, 202 are between 21 and 30; 194 are between 31 and 50; and 141 are between 17 and 20.

There are only 17 active probationers over 61 years of age. There are 61 on the list between 51 and 60.

Of the 615, 558 are male and 57 female.

He said that the athletic department's share of the gate receipts came to \$325.75. He said that the department's purchase of the new weight machine last spring put the athletic budget in the hole and that this added money would help overcome this.

The weight machine is being used both by the junior high school and the high school and it is the hope of the athletic department to purchase another machine for the use of junior high when the money for this becomes available.

For those who asked for further clarification on the statement last week that since the Old Glory School District is free of bonded indebtedness it would mean a reduction in the tax rate from \$1.67 to \$1.50 and this COULD mean \$7,000 less taxes next year. This does not constitute a statement in regard to taxes required for operation or tax valuation. It is, however, a matter of record that taxes collected for payment of bonded indebtedness by the district this year were approximately \$7,000 and the average yearly collection for the past ten years has been somewhat higher than that. Therefore regardless of costs, the 1956 Old Glory Rural High School District Building Bonds have been paid in full and no more taxes will be required for this purpose.

Pastor Commends Group for Efforts To Raise Money

Rev. Harold Fleming, pastor of the North Central Baptist Church, today commended the Youth Choir of North Central for its efforts to raise funds through the community-wide sale of light bulbs.

"There is a definite need for funds to go on a Mission Tour this summer," he said, "and it is heartening to have the Youth Choir devote so much time and effort to pro-

vide these funds. We are co-operating to the fullest to make this Light Bulb Campaign a success!"

Meanwhile, Robert Bailey, chairman of the drive, revealed that over 150 packages have already been sold. The drive will continue through Mar. 20.

Neinda Philosopher Says the Government Needs A Better System for Announcing Alerts

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One discusses the false national emergency alert this week, we think.

Dear editor:

I wasn't listening to the radio at the time so wasn't aware of the "national emergency alert" that went out over the country when somebody fed the wrong tape into the networks, but according to the newspaper account I read a lot of people got pretty excited and more would have

if more radio stations had believed what they were being inaccurately told.

I'm afraid the government's going to have to get a different system, because like it is nobody believes much of anything anybody says anymore.

It seems to be a national trend. No matter what a law says, practically any politician in violation of one can explain how he didn't violate it, taking so long to do it by the time he's through you've forgotten what the question was. This seems to work for poli-

Letters to Editor

Writer Backs Police Department

Editor Hamlin Herald

I would like to take this opportunity to express my appreciation to the Hamlin Police Chief, and the patrolmen under him, for the excellent way they have tried to enforce the laws in our community.

In a time such as this, when violence and the breaking of the law is on the rise, we have a handful of dedicated people who are trying at all times to protect us, our property, and make the streets safe for our children. While we are enjoying the comfort of our homes and TV, these people are on duty watching over our community, while their family sits at home alone.

To these dedicated men, I take my hat off.

If our Police Department is being hindered in carrying out their duties and enforcing the laws of the State of Texas, I say our citizens, Mayor, and City Council, should get behind our Department and give it our full support.

I believe surely there is some mixup or misunderstanding, as our Mayor and City Council, are elected by the people of Hamlin, to serve as our governing body, and be our spokesmen in matters concerning our community. I can't believe these people in whom we have placed so much trust and confidence, would let personal feeling sway their decision to interfere or to restrain the enforcement of our laws or protection of our lives and property.

Our Police Department personnel have made excellent examples of themselves as people of high moral. They belong to our local churches, are active in our local Boy Scout program, and have worked with our public school system in trying to show the hazards of various kinds of narcotics, besides building up the Hamlin Civil Defense program that we have for the first time in the history of Hamlin. Our local Department has solved more burglaries, and kept the violence to a minimum, and kept our streets safer from drunken drivers, more efficiently than anytime in the past.

How do these dedicated people have time to do all

of this and still have a home life for themselves, especially on the meager salary we pay them?

Let's show our appreciation for the Police Department we have and offer our support to them.

Lueders-Avoca Ag Dept. to Host Swine Course

A swine short course for adult farmers will be held March 15 through March 18 at 7:30 p.m. at the Lueders-Avoca High School Cafeteria in Avoca under the sponsorship of the Lueders-Avoca High School Vocational Agriculture Department, according to Mr. G. W. Avants, Superintendent and Mr. Don Welch, Teacher of Vocational Agriculture.

Earl Behrens, Swine Specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Animal Science at Texas A & M University, will do the instructing in the course. He is headquartered at Texas A & M University. Mr. Behrens holds a B. S. Degree in Agricultural Education from Texas A & M University, and a Masters of Education degree from Howard Payne College. He has been a teacher of Vocational Agriculture for 17 years specializing in swine improvement and has had experience as head of swine management for Parker George Company, Brownwood.

Farmers interested in attending the short course should write or call the superintendent of schools, Mr. Avants, or the teacher of vocational agriculture, Mr. Don Welch. A fee of \$2 will be charged. Swine Production Short Course Certificates are to be presented to each student who attends all the training sessions.

Mr. Behrens states that the short course will be adjusted to the wishes and interests of farmers enrolled, but that he expects to cover such subjects as selecting and breeding, feeding and feeding requirements management, disease and parasites, housing and equipment, and marketing.

News deadline is noon Tuesday.

ticians, and what I object to is that it won't work in other areas.

For example, if my bankers says "Your note was overdue last Tuesday," I'd like to be able to say, "Now look, it was a year ago I promised to pay that note by last Tuesday and I'm a man of my word, the record shows that, but the world doesn't stand still. What's true today is not necessarily true tomorrow. Life is vast and complex. I made that promise in the light of what was happening twelve months ago, and in that time as we all know the Indo-China situation has changed, we've had an earthquake in California, the cost of living has gone up, man has walked once more upon the moon, the world's biggest railroad and Rolls-Royce both have gone broke and the airlines are losing money, not to mention the pollution problem, and while it's technically true that note was overdue last Tuesday, you've got to remember for the 12 months prior to that it was under-due. You've got to look at this from the over-all viewpoint. On balance, the note was under-due 12 months and is now overdue by only six days. That's not such a bad record, is it?"

You try this, and judging by what the banker will say, you'll figure somebody has fed the wrong tape into him.

Yours faithfully,
J. A.

PREPARATION

Thousands of Christians throughout this great nation spend hours of serious study, searching the scriptures and commentaries written by scholars who have dedicated their lives to the task of seeking out the full meaning of God's Word.

These willing workers, teaching from the Bible feel that their work is vital to the fulfillment of your spiritual life.

Won't you accept the invitation to attend church as offered by the sponsors of this space, and receive the benefits offered by these willing teachers.

EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Patrolman Louis Stinnett has been certified under provisions of the "grandfather clause" of the certification law.

Upon graduation from this course all members of the Hamlin Police Department will be certified Texas Peace Officers.

Proposed CONSTITUTIONAL AMENDMENT

NUMBER THREE ON THE BALLOT (SJR 5)

Special Election May 18, 1971

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III, Section 51-a, of the Texas Constitution, be amended to read as follows:

"Section 51-a. The Legislature shall have the power, by General Laws, to provide, subject to limitations herein contained, and such other limitations, restrictions and regulations as may be by the Legislature deemed expedient, for assistance grants to and/or medical care for, and for rehabilitation and any other services included in the federal laws as they now read or as they may hereafter be amended, providing matching funds to help such families and individuals attain or retain capability for independence or self-care, and for the payment of assistance grants to and/or medical care for, and for rehabilitation and other services to or on behalf of:

"(1) Needy aged persons who are citizens of the United States or noncitizens who shall have resided within the boundaries of the United States for at least twenty-five (25) years;

"(2) Needy individuals who are totally and permanently disabled by reason of a mental or physical handicap or a combination of physical and mental handicaps;

"(3) Needy blind persons;

"(4) Needy dependent children and the caretakers of such children.

"The Legislature may prescribe such other eligibility requirements for participation

in these programs as it deems appropriate.

"The Legislature shall have authority to enact appropriate legislation which will enable the State of Texas to cooperate with the Government of the United States in providing assistance to and/or medical care on behalf of needy persons, in providing rehabilitation and any other services included in the federal laws making matching funds available to help such families and individuals attain or retain capability for independence or self-care, to accept and expend funds from the Government of the United States for such purposes in accordance with the laws of the United States as they now are or as they may hereafter be amended, and to make appropriations out of State funds for such purposes; provided that the maximum amount paid out of State funds to or on behalf of any needy person shall not exceed the amount that is matchable out of federal funds; provided that the total amount of State funds paid for assistance grants for needy dependent children and the caretakers of the children shall not exceed Fifty-Five Million Dollars (\$55,000,000) during any fiscal year.

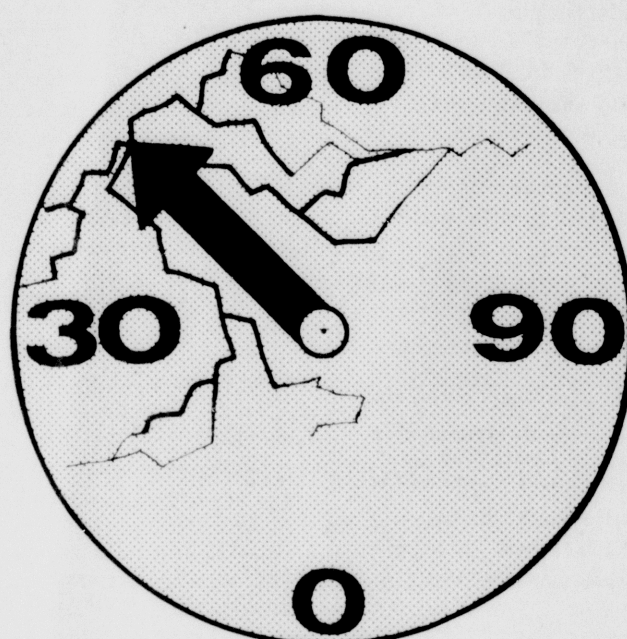

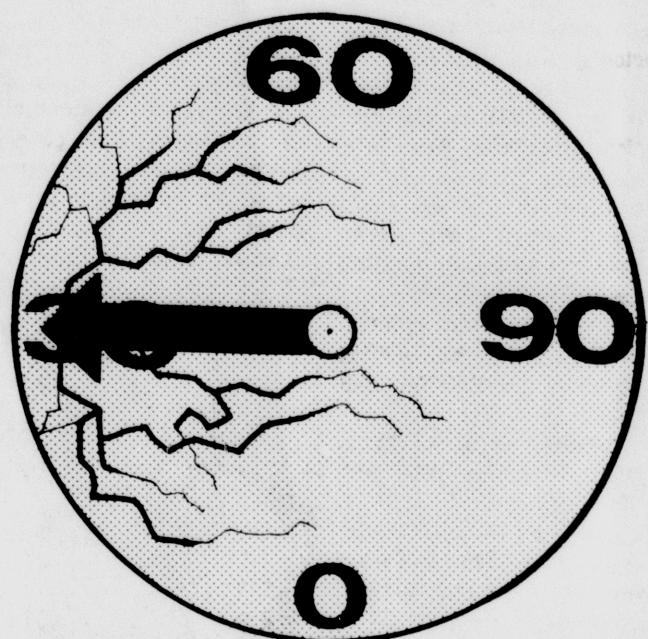

"Provided further, that if the limitations and restrictions herein contained are found to be in conflict with the provisions of appropriate federal statutes, as they now are or as they may be amended to the extent that federal matching money is not available to the State for these purposes, then and in that event the

Legislature is specifically authorized and empowered to prescribe such limitations and restrictions and enact such laws as may be necessary in order that such federal matching money will be available for assistance and/or medical care for or on behalf of needy persons.

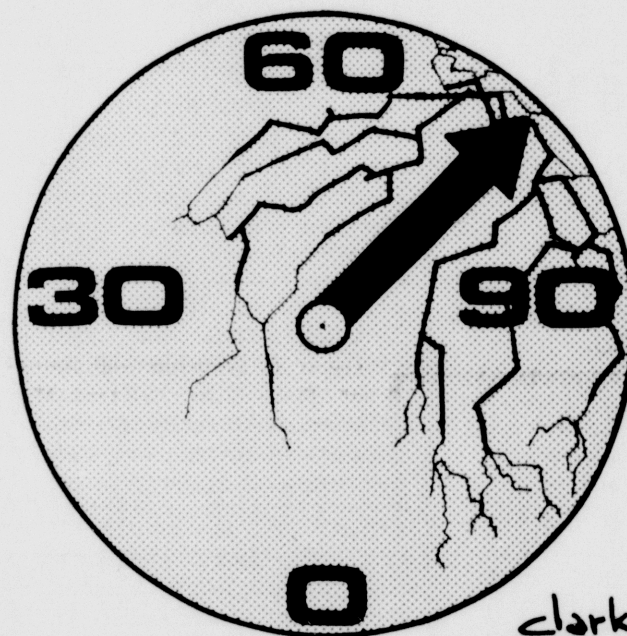

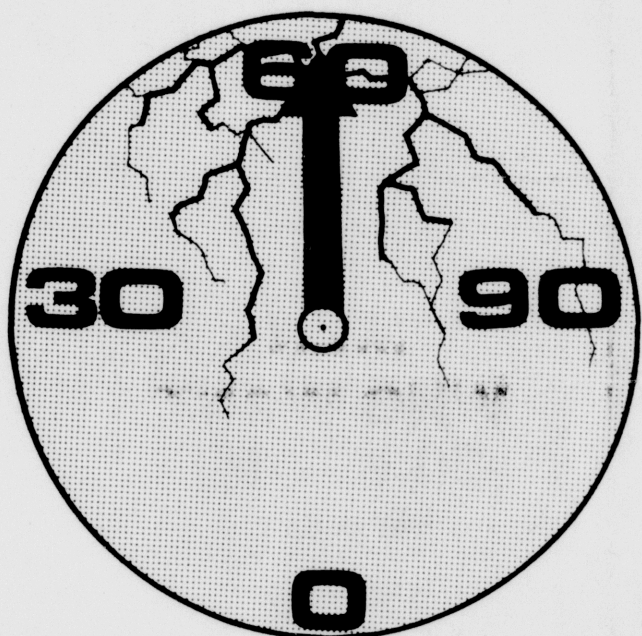

"Nothing in this section shall be construed to amend, modify or repeal Section 31 of Article XVI of this Constitution; provided further, however, that such medical care services or assistance shall also include the employment of objective or subjective means, without the use of drugs, for the purpose of ascertaining and measuring the powers of vision of the human eye, and fitting lenses or prisms to correct or remedy any defect or abnormal condition of vision. Nothing herein shall be construed to permit optometrists to treat the eyes for any defect whatsoever in any manner nor to administer nor to prescribe any drug or physical treatment whatsoever, unless such optometrist is a regularly licensed physician or surgeon under the laws of this State."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on May 18, 1971, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment removing the limitation on the total State appropriations for assistance grants for the needy aged, the needy blind, and the needy deaf, and setting a limitation on total State appropriations during any fiscal year for assistance grants for needy dependent children and the caretakers of such children."

HOW FAST IS TOO FAST?

Clark
BRADLEY

It depends on several conditions . . . and your safety hinges on your recognition of these conditions.

Your car may be capable of making 110 miles per hour, but 50 miles an hour around some curves can cause your car to skid into a costly traffic crash.

30 miles an hour on rain-slick city streets can be an open invitation to disaster. 70 miles an hour on rain-slick superhighways can also be deadly.

Posted speed limits are maximum limits to be approached only under ideal traffic, weather and road conditions. Because you see a 70 mile-an-hour speed limit sign, it does not mean that you can travel

that speed—under all circumstances—in safety. You may find a 25 mile-an-hour speed limit in some school zones, but if children are walking along the street or playing nearby, then 25 miles an hour under those conditions is obviously too fast.

It takes a great deal of mature judgement to know how fast to safely negotiate all traffic, weather and road conditions. Many Texans have this judgement, but unfortunately some do not. How about you?

AUSTIN, — Legislators moved toward their first major tax showdown this week. House Revenue and Tax Committee was due to bring out its version of a revenue-sharing measure to balance a record budget.

Heart of the measure is a raise in the sales tax rate from 3.25 per cent to four per cent (good for \$300 million in additional biennial revenue) and an increase in motor vehicle sales tax from three to four per cent (for another \$70 million).

Proposal to be advanced to the House floor for debate reportedly will include:

An increase of 50 cents (to \$3.75) per \$1,000 in the corporation franchise tax rate, \$26 million.

Extension of the sales tax to repairs, laundry, dry cleaning, haircuts and beauty shop services, \$100 million.

Sales tax on amusements, including professional sports and tourists attractions, \$35 million.

An increase in hotel room tax from three to four per cent, \$4 million.

Sales tax on telephone and telegraph bills, \$40 million.

House already has passed a bill to raise out-of-state students' tuition at state-supported colleges and universi-

ties from \$200 to \$700 a semester and a \$185 million bond bill to finance new college building. Neither measure has moved beyond subcommittee in the Senate.

Speaker Gus Mutscher has indicated he will allow representatives a full run with amendments to the tax bill on the House floor.

Revenue and Tax Committee Chairman Rep. Ben Atwell of Dallas said lawmakers have the choice of wringing major new revenue out of tried sales taxes or looking to a combination corporate-personal income tax.

AG OPINIONS — A voter registration certificate should not be issued to one convicted of a felony and placed on probation until the court sets aside the complaint or indictment as specified in the election code, Atty. Gen.

Crawford has held. In other recent opinions, Martin concluded that: A justice of the peace is not entitled to any fee for conducting administrative hearings on the revocation or suspension of driver's licenses. Jury panels selected by jury commissioners appointed by a county judge who has an interest in a pending case in county court are not void ad the jurors are not disqualified to serve on county court juries. COURTS SPEAK — U. S. Supreme Court reinstated the Texas obscenity law in a Dallas case involving prosecution of an underground newspaper. State Supreme Court granted a new hearing for a Cameron County man who blamed his insurance company for negligence in defending him in a 1958 suit arising from a traffic accident and in rejecting reasonable settlement offers.

Electric Water Heaters

Electric water heaters have remarkable advantages. They have no open flame . . . hence no smoke, no soot, no dirt. Because they are flameless, electric water heaters do not require venting, so they can be placed anywhere in the house, in a closet, pantry, or, with some models, under the counter. Modern electric water heaters offer high recovery plus abundant hot water for every need.

Best of all, with low-cost power furnished by the electric cooperative your electric water heater is economical to operate. So do your bit for the ecology economically. Heat your water the modern way with flameless electricity.
